A list of real estate owners, with the pages on which their property may be found, follows the list of real estate by streets. This is followed by a list of personal property taxpayers in the years 1921 and 1922. A general index may be found on the last pages of the book.

Machinery in manufacturing plants is appraised as a part of the real estate.

The following abbreviations have been used: l. for lot; f. for farm or factory; bl. for block; g. for garage; s. for shop, shed or store; m. for mill or manufacturing plant; (u) for unfinished; N. for North; E. for East; S. for South; W. for West.

A lack of space has made it necessary to give the dimensions of lots in even figures, and when the dimensions are not equal, the frontage only is given. Whenever the dimensions could not be determined, the acreage has been taken from the preceding appraisal. Whenever errors in appraisal, location, measurement or acreage are found, they should be reported to the City Clerk for correction in the next issue of the book.
